## **NOTICE OF NEW CONCUSSION PROTOCOLS**

**Equestrian Canada (E C ) has become one of the first national governing bodies for sport in Canada to release official, sport-specific guidelines on return-to-play protocols for athlete concussions.**

**Though we acknowledge that all equestrian sports have an inherent risk of concussion in participation there is no need to increase risk unnecessarily.**

**Key components of the new Accidents & Return to Play include the following:**

- In the event of a fall/accident where a concussion can be reasonably suspected, the competitors must receive medical clearance by qualified medical personnel onsite before continuing to compete.**
- The competitor is solely responsible for ensuring the onsite medical assessment takes place. Should a competitor refuse to be evaluated, they will be disqualified from the competition.**
- If onsite qualified medical personnel suspect a concussion or believe the competitor may be at risk of concussion due to the nature of the fall or impact, the competitor will be suspended from competition and placed on a Medical S suspension List until medically released.**
- C competitors will remain on the E C Medical suspension List until they submit an E C return to Play Form, signed by a licensed physician, to E C .**
- No competitor shall compete at E C sanctioned competitions while on the EC Medical suspension List and competition organizers may refuse entry to anyone currently on the list.**

**The full Accidents & Return to Play rule can be found in the 2017 Rules of Equestrian Canada, Section A, General Regulations, Article 101, published in January 2017.**

**Falls are not unexpected in vaulting and, in fact, most of them are simply a slip off the horse. Our judges are trained to recognize the severity of a fall. In a simple slip off the horse the bell will not ring, the timer is not stopped and the vaulter is expected to remount the horse as quickly as possible and continue their performance in the remaining time allowed by the rules.**

**In a more severe fall the judge will ring the bell to stop of timer. The vaulter must then do a self-examination to determine if they are able to continue. It is important that vaulters are honest with themselves about their symptoms and that they do not continue if there is any suspicion that there might be a concussion or other serious injury.**

**AULTER ELEGIBILITY:**

For current vaulter eligibility criteria please go to [www.fei.org](http://www.fei.org)
